

Opportunity Knocks!

19 Mclean Street, Waitara, New Plymouth District

Price: SOLD

Every now and then an interesting opportunity arises that demands some investigation. This is one of those times.

The options are only restricted by the imagination of the potential new owner.

On offer is the equipment that was used to start Zestlife.

Huge expense was undertaken to install the fully registered dairy processing plant which includes-

A chilled water unit

Process water boiler

Chart recorder

PLC for process control

160 litre batch pasteuriser

Storage tank and ancillary equipment.

All the plans of the building and schematics are available to the purchaser.

As well as this equipment the building is available to purchase to complete the package. There is a 3.7 x 3.5m cool room with internal and external access. A separate packaging room plus other rooms that are all Poly Panel lined.

Also, a separate Compressor room and positive displacement pressurised storeroom.

It goes without saying that this needs to be viewed and absorbed.

Possible uses abound, beer? Goats milk? Continue the Zestlife journey?
